GENERAL NOTES:

The Carnaby Garden at Brushbox Park presents a valuable opportunity to support local wildlife and create a welcoming space for the community to enjoy. New garden beds will feature striking Banksias and other native, waterwise species that provide vital food sources for the Endangered Carnaby’s Black Cockatoo, helping to transform the park into a thriving urban habitat. The addition of advanced trees will offer immediate shade and visual appeal, enhancing the natural beauty of the space.

Improvements to fencing, park furniture, and the inclusion of a new shelter aim to increase comfort, safety, and overall amenity, making Brushbox Park a more inviting place for people of all ages to relax, play, and connect with nature.

The site's proximity to services and regional habitat presents a unique opportunity to establish a cockatoo watering point, further enriching local biodiversity and enhancing habitat values.

LANDSCAPING

CARNABY GARDEN PLANTING SCHEDULE:

Species	Size	Qty	Cockatoo Value*	CoG Planting Palette
Large Tree				
Corymbia calophylla	90 L	6		✗
Corymbia maculata	90 L	7		✓
Medium Tree				
Banksia grandis	90 L	5		✓
Hakea petiolaris	90 L	4		✓
Shrub				
Banksia ashbyi dwarf	FT	110		✓
Banksia attenuata dwarf	FT	110		✓
Banksia menziesii dwarf	FT	110		✓
Banksia prionotes dwarf	FT	110		✗
Hakea lissocarpha	FT	110		✗
Hakea prostrata	FT	110		✓
Hakea trifurcata	FT	110		✗
Low Shrub				
Banksia nivea	FT	250		✓
Leucophyta brownii	FT	250	Not Listed	✓
Thryptomene 'Supernova'	FT	250	Not Listed	✓
Ground Cover				
Eremophila glabra prostrate	FT	450		✓
Adenanthos obovatus 'Coral Carpet'	FT	450	Not Listed	✓
Banksia blechnifolia	FT	450	Not Listed	✓
Conostylis candicans	FT	450	Not Listed	✓
TANIKA Lomandra longifolia LM300	FT	450	Not Listed	✗
Patersonia occidentalis	FT	450	Not Listed	✗
